

April

103-

Tuesday April 28<sup>th</sup> 1891

I & Mr. West have been staking claims on the "Lost Cabin" group today and this evening. We found a rich gold ledge, lying west of the Magpie & Wind Splitter ledges. I met Mr. J. S. Davis & John Severs this afternoon. There is a fair prospect of an excitement over our find which is rich in silver & gold. When I got home tonight (after putting the horse in the barn that Mr. West let me ride over) I found a visitor from Kimball's Mill (and here and a visit & to see the corvee). Mr. J. C. West & I located the following ledges today: Pectolus, Wind Splitter, Native Silver, Caribou, & the Magpie.

Wednesday April 29<sup>th</sup> 1891

I discovered a vein of gold ore on the Mount Heela ledge this forenoon & also located the Hawkeye, Blue Bird, & Yellow Jacket. Today Father came over about noon & went up the gulch with I & Mr. West to see what I supposed to be the remains of a 49ers camp.

Thursday April 30<sup>th</sup> 1891

Father & J. C. West went to Hot Springs this morning & returned this evening. I went over on the hills North West of Mc Adams this afternoon. T. L. Mc Adams was over on a visit this evening.
